

Thank you for your interest in the Civic Center Facilities Assessment RFP. We have received a number of inquiries about a site visit prior to the due date for proposals. In order to minimize potential disturbance to the City's operations by scheduling individual site visits, the City will host a one hour facility walkthrough after hours at 5:30 PM, Thursday, July 29, 2010 for all interested professionals. The tour will begin in the lobby of the Administration building. The walk through is **not** mandatory.

We have also had requests that drawings be made available prior to the proposal due date. Sketches of the existing Administrations and Community Services buildings are attached and will be available on the website. These are not "as-built" drawings; they were created for other purposes. As such, they should not be assumed to be to scale nor to represent the current internal configurations. However, they do represent the general layout of the buildings and written dimensions are assumed to be correct to the level of accuracy intended. Similar sketches for the Cable TV/Communications Center building are not available at this time.

Responses to other questions presented prior to yesterday's deadline will be available later this week by email to known interested professionals and on the RPV Public Works webpage.
